

# STRANGER SCIENCE

#ASUBiodesignHoCo

## Discover the mysteries of Stranger Science at the ASU Homecoming Block Party.

The Biodesign Institute at ASU will host a themed tent, Stranger Science, where fans can engage in innovative science as it relates to the television show “Stranger Things.”

The block party will start four hours before the Nov. 3 homecoming game against the University of Utah.

### Sign up now

Volunteer for a four-hour shift to help us host science activities. Make sure to select the Biodesign tent as your department preference on the volunteer form.

All volunteers will receive a discount code for game tickets.

## ASU Homecoming Block Party

Saturday, Nov. 3

9a.m.–1p.m.

Tent #K-91 near the Palo Verde Beach

Get a free T-shirt when you sign up to volunteer

### Protein Arcade

Use Google Cardboard to see proteins in virtual reality. Touch and feel 3-D models of proteins and see how they work.

### Stranger Slime

Create Stranger Slime filled with either “viruses,” molecules or DNA.

### Kombucha Patch

Explore microbial resource exchange in Kombucha, a fermented tea.

### Eleven’s Levitation

Participants use PVC pipes to create static energy to levitate tinsel orbs.

### Upside Down

Take a trip to the Upside Down with a distortion lens.

### Shift Times

Shift 1: 7:30–11a.m.

Shift 2: 10:30a.m.–2:30p.m.
